

Our Language Week

Trip to Trenčín

We had a language week and on 22. October on Wednesday we had decided to

go to Trenčín to City University of Seattle.

We arrived at the train station at quarter to

11 and then we took a bus to the University.

They welcomed us and the admission advisor

Veronika showed us the school library. Then

she told us to divide into 3 groups. There were

*3 lectures. One about **European Union**,*

*another about **European politics** and the last one about **microeconomics**. The*

lectures lasted for an hour. It was very hard to understand because the lecturers

were speaking very fast and they used a lot of specialized terms. However, we

tried to understand and we learnt a lot of new interesting information. After the

lectures we went to the town and we had some free time for shopping. Then we

met at the train station and at 15:26 we went back to Považská Bystrica.

We really liked the university and after this visit some of us decided to study

there after we finish the high school.
