

Language week - discussions, Romeo and Juliet

One of our activities was Discussion. We sat in the circle, the teacher gave us some topics and who got the speech magic keys with a rubber monster (or pencil, or sword, ball...) could speak. Some of the topics were easy to discuss. For example - where we would like to live. Usually, students chose sunny places near the sea. Another easy topic was to speak about our dream future job. Ideas were different and interesting (an astronaut, the Queen of Great Britain, an archeologist, a singer, a journalist, travellers...).

We also spoke about a more difficult thing - what do we think about this school? What do we like and hate? Surprisingly, some of us think, this school has not been the best choice, because some subjects are difficult but people and classmates are friendly, nice and kind.

On Monday, we watched the movie called Shakespeare In Love, which indirectly showed the story of Romeo and Juliet. On the next day, we got a Romeo and Juliet plot summary, we made two groups. The first had to make a comic - they had to take photos and write dialogues into bubbles. The second group had to prepare a theatre performance. There were 8 people in it, we divided roles. Practising was funny, everybody had a good time.

We are really looking forward to the next language week.
