

ITO week

It's the last week to finish our catalogue. Our IT teacher Mr Solčiansky points out the mistakes in our catalogue. Mrs Rosinová phones and writes e-mails to German and Dutch teachers. Everything seems to be all right.

Hurray! It's 23 March and we wake up with a smile on our faces. We don't have to stress to school and we don't have to write tests. On the Internet we find the catalogues and then we contact our partners. Our firms (M-glasses, Glamorous, Mičuge and Lentilka) have to send our catalogues to foreign firms and then they send their catalogues to us. We send our first order and they send a delivery note and invoice. If we agree with the price conditions, we send them a cheque. We write e-mails and sometimes we phone via skype.

This week was very interesting and was different from ordinary lessons. We had a lot of fun and we could practise our knowledge of English and Economics. We'd like to thank our school and our teachers Mrs. Rosinová and Mrs. Mrenová who helped us a lot. Thank you for everything.
